

SWANSON SUBSTATION IMPROVEMENTS PROJECT

Indiana Michigan Power (I&M) representatives plan power grid upgrades to improve electric reliability for customers in northern Indiana. The Swanson Substation Improvements Project involves rebuilding the substation to modern standards.

WHAT

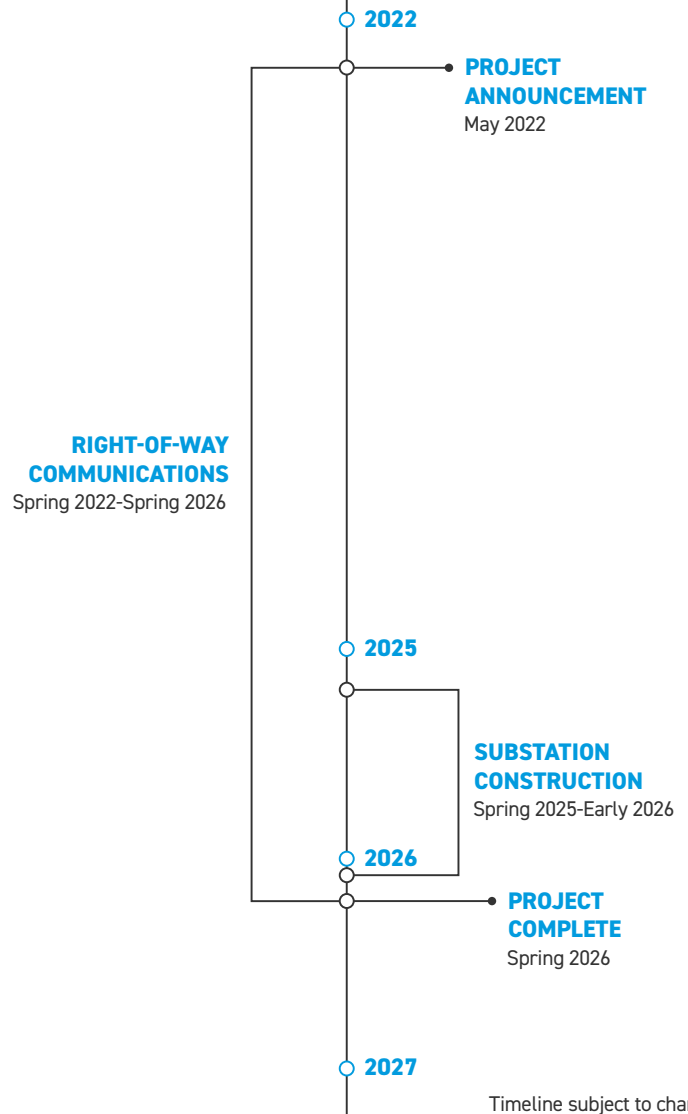

The project involves expanding and improving Swanson Substation, located off Hickory Road, near Springwood Drive in Clay Township.

WHY

The project strengthens the electric transmission system in the area by updating vintage infrastructure dating back to the 1950s to modern standards. The upgrades improve the substation's operational performance, reduce the frequency of maintenance and enhance electric reliability for area customers.

WHERE

The project area includes:
- Clay Township in St. Joseph County
