*Preliminary and Subject to Change*

If approved, only one route (consisting of multiple route segments) from one of the proposed Babel Switching Station Options to one of the Proposed Running Bear Substation Options will be selected by the Public Utility Commission of Texas (PUCT).

All routes and route segments in this notice are available for selection and approval by the PUCT.

Some data shown including property boundaries, easements, wetlands, and floodplains were obtained from third-party sources and are provided for informational purposes only. These data may not be current and should be used as a general guide to feature locations.

Some legend symbols are enlarged for easier identification.

Once an alternative route is selected and approved by the Commission, the approved route will be subject to the Texas Public Utility Commission's (P.U.C.) review and approval.
